

MODERN ART QUILTERS:

MINIATURE 9-PATCH BLOCKS

Foundation Paper Piecing (FPP) is a great way of reproducing complicated, pictorial or tiny blocks accurately as well as making blocks which might be very difficult or impossible by other techniques.

There are several methods of FPP, each with slight variations, it is worth trying different people's instructions to find the one that suits you best. For full instructions for FPP, including what to do with a block marked **fold**, please see the FREE TUTORIAL on AitchBee's website <https://www.littlepatchpockets.co.uk/patterns/tutorials/handyhints.html>
