

Eccentric Cross Block

You Need: a square of fabric

two strips of contrast slightly longer than your square

Method:

1. Lay one strip across the square both RS up
2. With rotary cutter cut a freely curving line close to the left edge of the strip. Remove the scrap.
3. Flip strip over RS together.
4. Stitch, holding the edges so they match up.
5. Press turnings away from the inserted strip.
6. Take back to cutting board and lay R side of square over the edge of the strip both RS up. Cut a matching free curve; **leave at least half an inch of strip showing.**
7. Flip over RS together, discard the scrap, and stitch as before, and press away from the strip.
8. Turn a quarter turn and lay your second strip over the square.
9. Cut as before and Flip and Stitch RS together. Press
10. Cut the second side to match and stitch as before.
11. Press and trim your block square
